MICHAEL BARNETT

FREMANTLE 02-04 DECEMBER 2016
BEACON YOGA CENTRE

Refine your energy and higher wisdom comes.

Wisdom lies in those dimensions which we aim to reach together.

"The truth of things is: what they mean to an enlightened man" -says a Zen Master.

The closer you get, the truer this is.
What a goal then that is.

And that closeness can come through refining your energy till it is one with the cosmic vibration.

That's the target each time!
